EDUCATION

Texas A&M University

Bachelor of Science in Computer Science, Minor in Game Design and Development

August 2022 - May 2026

GPA: 3.7/4.0

EXPERIENCE

Zynga

Software Engineering Intern

June 2026 - August 2026

Austin, TX

- Developed and debugged features for Zynga Poker across a C#/Unity MVVM client architecture and Go backend in a large-scale live-service codebase

Microsoft (Halo Studios)

Software Engineering Intern

May 2025 - August 2025

Redmond, WA

- Built and shipped production tooling that automated Unreal Engine test reporting, improving debugging workflows and release confidence for developers and QA
- Developed CI-driven backend tooling and telemetry ingestion pipelines for automated Unreal test reporting using Jenkins, Kubernetes, Terraform, and Azure Data Explorer

Texas A&M Learning Interactive Visualization Experience (LIVE) Lab

Developer

August 2024 - May 2026

College Station, TX

- Developed gameplay systems in Unreal and Unity while collaborating on educational games within a 20+ person interdisciplinary team

United Services Automobile Association (USAA)

Software Engineering Intern

May 2024 - August 2024

Plano, TX

- Engineered the user interface for an internal test-data management web app used by engineering teams to streamline testing workflows

SKILLS

Languages: C++, C#, Python, Go, JavaScript, Java

Game/Graphics: Unreal Engine, Blueprints, Unity, Common UI, OpenGL, Wwise

Tools: Git, Perforce, Plastic SCM, Jenkins, Docker, Kubernetes, Terraform, Azure Data Explorer, React, HTML/CSS

PROJECTS

Wiz-Herd | *Unreal Engine, Blueprints, Perforce, Common UI*

January 2025 - Present

- Designed and implemented reusable player-facing gameplay and UI systems for a networked multiplayer game, helping deliver a public Steam demo in a team of 5

Crumple Quest | *C++, GitHub*

May 2025 - Dec 2025

- Built a 2.5D roguelike in a custom C++ engine with a team of 4, developing player-facing game flow, UI systems, and a miniaudio-based sound system supporting procedural SFX and dynamic music transitions
- Designed levels supporting the unique folding/flipping mechanic; won Best in Programming (TAGD Fall 2025)

Pawsitivity | *Unity 3D, C#, Wwise, GitHub*

May 2025 - Dec 2025

- Developed 3D gameplay and interaction systems for a Meta Quest 3 VR game in Unity/C#, including physics-based locomotion and Wwise audio integration

Grim Encounters | *Unity, C#, Ink, GitHub*

January 2024 - May 2024

- Developed a 2D turn-based strategy game in a team of 4
- Implemented save/load and dialogue systems (Ink), plus enemy AI and UI flow for turn-based encounters
- 1st place, Best in Art, Best in Sound, Crowd Favorite at Texas Aggie Game Developers Spring 2024 game jam
